

D-46-IR Infrared Counterfeit Detector

High Resolution infrared camera, User friendly.

Compact design, Light and reliable, Aesthetic shape and maintenance free.

Use for all currency in the world with "You can find what you can't see" method with 5,5" LCD Monitor.

Power Source: 220VAC/ 50 Hz, 20 Watt

Dimension (LxWxH) : 110 x 160 x 290 mm

Finantek®
Banking Equipment Solution

FPB-518 Hot Melt Hand-press Punching and Binding Machine is made of environment-protective plastic and fine metal material. It designed to be pressed manually. FPB-518 used to the out packing binding, classifying and arranging of files, textbooks and data. FPB-518 can be widely used in schools, enterprises and institutions.

FPB-518 Hot Melt Hand-press Punching and Binding Machine has two handles so it is very easy to handle with. The special titanium-electroplated knife makes it practical and labor-save to punch holes. The slide-shape hot rivet positioning needle on FPB-518 reduces the chances of malfunctions. It is easy to safeguard the distance adjustment of the holes asides of knobs. On the right side of FPB-518 is equipped by an open-close transparent preservation box, which can hold knife and knife mats. There are several sets of conducting indicator lights for indication.

Technical parameters

Perforated materials : Paper
Binding speed : About 9 Second
Binding supplies : Polymer nylon rivet tube
Nett Weight : 4.5Kg
Punch diameter : 5.1mm
Number of poles : 3 (phase, zero, ground)
Warm-up time : about 4min
Power Supply : AC220V ± 5% 50HZ, 60Watt
Back and front margin: 8mm-24mm
Drilling, binding thickness: 30 mm or less arbitrary thickness
Dimensions (LxWxH): 310mm × 199mm × 469mm (handle pressure height 250mm)
